I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

Compounded hormones in combinations and dosages to meet my needs as a small menopausal woman were not available locally. Local pharmacies offer a "one-size-fits-all" hormonal program. It took 2 years of experimentation to get this right. Now, finally, my former energy levels are restored. If a specialized pharmacy can only ship out of state on a limited basis, how will I make sure I am on the list? What ~~it~~ would make me so special, so deserving? Do not limit my access to this perfectly-tuned
